In the business of Fluid Flow Engineering, Since 1992

# About Us

Technomatics is the leading technical solutions provider for Industrial Pumps, Valves and Water meters. We offer expert value additions and provide end to end solutions for:

- ◆ Pumps & Pumping Systems
- ◆ Valves & Control Systems
- ◆ Flow meters & AMR Systems
- ◆ Water Management Systems
- ◆ Automation & SCADA
- ◆ Surge Vessel Systems

Our partnership with reputed manufacturers helps to deliver reliable energy efficient products and quality services to our valuable customers.

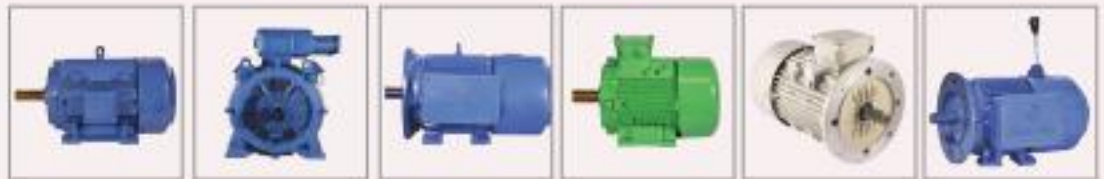

AVK Valves

Gate Valves, Butterfly Valves, Check Valves, Air Valves, Needle Valves, Control Valves, Knife Gate Valves, Sluice Gates, Strainers, Valve Accessories, Repair Clamps & Dismantling Joints

BBL Motors

Energy efficient 3 Phase AC Electrical Rotating Machine from 0.12 kW to 1250 kW  
Motor confirm to relevant IS/IEC standards - IE2, IE3, IE4, IE5

ITRON Water meters

Single Jet, Multi Jet, Bulk Meters, Irrigation Meters, Strainers, Flow Straightner, Accessories, Remote Reading, AMR Solutions

Enriching Lives

KIRLOSKAR Pumps

Horizontal End Suction Pumps, Split Case Pumps, Multistage Pumps, Vertical Pumps, Submersible Pumps, Turbine Pumps, Special & Engineered Pumps & Systems, Pump Controllers & Control Panels

# Our Strengths

Since 1992, Technomatics excels in offering customized solutions to meet customer requirements from engineering up to implementation of products and services.

Supplied <b>1500 +</b> Pumps & Systems	Supplied <b>3333 +</b> Valves & Controls	Supplied <b>2000 +</b> Bulk Water Meters	Supplied <b>500 +</b> Water Management Control Valves	Supplied <b>38nos.</b> Process Pumps for 8000TCD Sugar Plant.
Executed - VT Pumps - <b>315kw,</b> 6 units with entire Electromechanical works for 125 MLD Water Pumping Station	Executed - High Pressure Pumps - <b>255 Meters</b> for 10 MLD Desalination Plant	Executed - <b>45kw</b> VFD Pumping System for River Water Project	Executed - Air Valves for Water Treatment Plant in Vietnam	Executed - Pressure Feed Pumping System - <b>10 units</b> for Soft Flow Dyeing Units, Textile Industry
				
Installed <b>400+</b> Surge Protection Systems	Installed <b>30+</b> Pumping Systems	Installed <b>20+</b> Surge Vessel Systems	Installed <b>12+</b> Automation & Control Systems	Installed <b>70+</b> AMR Metering Systems
Executed - High Pressure Pump - <b>34cum x 615 Meters</b> with 180kw Electric Motor for 80 MLD Desalination Plant	Executed - DPCV of size <b>1100mm</b> with allied Pipes & Fittings for Water Supply Project	Executed - <b>150kw</b> VFD Control System for River Water Pumping System	Executed - Submersible Pumps- <b>180kw &amp; 110kw</b> for UGD Project, City Municipal Corporation	Executed - Surge Protection System for <b>1200mm</b> Cross country Pipeline with Pump capacity of 8000cum x 210Mts for DAWASA Project, Dar-Es-Salaam, Tanzania

# Our Clientele

<b>Cement</b> 		<b>Chemical &amp; Petrochemical</b> 					
<b>Engineering &amp; Contracts</b> 							
<b>Food &amp; Beverage</b> 							
<b>Institution &amp; Labs</b> 		<b>Institution &amp; Labs</b> 		<b>Marine &amp; Defence</b> 		<b>Marine &amp; Defence</b> 	
<b>Power</b> 			<b>Pulp &amp; Paper</b> 				
<b>Sugar &amp; Distillery</b> 					<b>Space &amp; Technology</b> 		
<b>Textiles</b> 			<b>Water &amp; Irrigation</b>
